Smart Recut Algorithms

In the system, there are two Smart Recut algorithms:

Algorithm	Availability	Usage
13. SmartRecut (Brilliant, Oval)	Under standard HASP key	For Smart Recut of Brilliant and Oval cuttings.
19. SmartRecut (Brilliant, Oval, AnyCut)	- under "Developer" HASP key - under special key which includes AnyCut Workflow feature	For Smart Recut of Brilliant, Oval and **any other** cuttings.
