

Solutions Report

The *Solutions Report* allows comparing solutions by main parameters including ASET and Office pictures. This report is displayed in the system itself - in the Scene.

To use the feature:

- In the Solution List, select solutions to be included in the Solutions Report, then click . The included solutions are marked with the  symbol.
- On the right panel, click **Solutions Report**. The report is displayed in the Scene.
 - **Note** If you include many solutions in the report they can be displayed not all at once, but on different pages
 - Page switcher and the **Columns per page** setting are displayed in the bottom of the report page
- You can sort the solutions in the report using the **Sort by** control.
- You can add or remove solutions from a report via the Solution List using the context menu.
- You can remove a solution from the report by clicking  (do not confuse with  wich removes the solution from report and **deletes** from the Solution List)
- When deleting a solution from the list, it is deleted from the report as well.
- You can add/remove all solutions at once. To do so, in the Solution List, click the arrow ▼ to the right of  or , then from the displayed menu, select **Add All Solutions to Solutions Report** or **Remove All Solutions from Solutions Report** correspondingly.
