Your browser does not support the HTML5 video element				
Video summary: • Goodwin is a new type of cut providing more precise control over the cut geometry ◦ Some allocation forms are not compatible with Goodwin ◦ If such forms were added to a cut of Goodwin type, they are not displayed in the list and do not work ◦ Remove such form files from the cut folder ◦ Normalize these forms ◦ Add them as allocation forms again ◦ Now they work				
Video keywords: allocation form, Goodwin, Smart Normalize
