

# DALS 1.6.7

<https://www.dropbox.com/s/5vkn0k94m791ybd/DALS%201.6.7.45.exe?dl=0>

## What's new

- Supported many light groups (not only top light + coaxial).
- Fixed hanging after working with a file save dialog.
- Supported work with autostereoscopic mode not only in fullscreen mode, but also in a window mode. Supported autostereoscopic stereo also on many views in a tab.
- Simplified connection to the DALS remote stream by generating QR code with a remote stream link.
- Added showing of a current lighting kind (top light / adaptive light / photometric stereo)
