

# Cutwise Agent Documentation

Search Documentation

(try typing your question or the name of anything you see in the Cutwise Agent user interface, e.g. "processed files" or "folder monitor")

The screenshot shows the 'Files Log' tab of the Cutwise Agent software. The main area is a table with columns: #, FILE NAME, STATUS, SIZE, APPLICATION, TRY, START, and FINISH. The table contains several entries, mostly from '06/07/21' at 11:29:19. The 'APPLICATION' column shows 'CutwiseAgent' for most files. The 'SIZE' column includes values like 141.9 KB, 146.9 KB, 153 MB, etc. The 'START' and 'FINISH' columns show timestamps such as 06/07/21 11:29:46 and 06/07/21 11:30:36. The left sidebar has sections for 'Status' (In progress, Pending, Private, Saved, Expected, Error) and 'Date' (Today, 3 days, Week, 2 weeks, Month). A bottom status bar indicates 'Wired links: 100 | Selected links: 1 | Last action: No'.

**Cutwise Agent** – is windows application that is used to upload data from Octonus software like DiBox, HP, ViBox to Cutwise Platform.

Download current Cutwise Agent version from [Octonus website](#).

## Usage:

- Authorization
- Upload Data to Cutwise
  - From DiBox2.0 v.6.1.11 or higher
  - From HP Carbon
  - From ViBox, DiBox1 and HP Oxygen (Manual Upload)
