2024-03-25 - Cutwise 6.9

Here you can find information about what is new in Cutwise version 6.9

- Ox2z to STL conversion service for Rough and planned solutions Demo examples
- Carbon Viewer
- Carbon Viewer new modes
- Carbon Viewer settings adjustments
- Billing and transactions
 - One account for transactions
 - HPC Bonuses in Cutwise billing
- Filename for decrypting transactions
 Milkiness, Treatment and Inclusion details
- Seller notes field in collections

Ox2z to STL conversion service for Rough and planned solutions

Service is available at cutwise.com/conversion

It converts HPCarbon Ox2z file uploaded to Cutwise to one STL file (if only scan is uploaded) or to set of STL files in ZIP archive (one STL for every diamond in selected solution). Selected solution is the one, marked with golden star, the first with silver star or solution with highest mass if neither of the solutions are marked with stars. The cost of conversion is 2€per carat for scan mass, minimum price is 1€

Upload file

| Conversion Service | | | | | | | Upload new file | | | |
|---|-------------|--------|--------|-------|---------|---------|-----------------|--|--|--|

Carbon Viewer

Carbon Viewer new modes

Two new modes in Overview section were added

Carbon Viewer settings adjustments

Several Carbon Viewer settings, like Rough and Solutions transparency, Sawing Planes color, can be customized per user preferences. Contact Lexus team if these adjustments are required.

Billing and transactions

One account for transactions

HPC and DiBox accounts are merged to one, detailed information can be found in Overview sections of Cutwise billing dashboard https://cutwise.com/billing
