

From External Video Systems (like 360 video)

Upload video from other systems (girdle and pavilion) to Cutwise products.

 This functionality is currently available only for *.mp4* format of video files

To upload 360 video, you need to do the following:

Step	Screenshot
1. Open Cutwise Agent, log in with a Cutwise account. 2. Go to Settings:	 The screenshot shows the Cutwise Agent interface. The top bar includes a search bar and a user profile icon labeled 'metricsdemo'. A red box highlights the Settings icon (a gear) in the top right corner, with a red arrow pointing to it. The main area displays a 'Files Log' table with columns: #, FILE NAME, STATUS, SIZE, APPLICATION, TRY, START, and FINISH. The table contains four rows of data, with the last row (401) highlighted in red. Below the table is an 'Info Log Jobs' section showing details for a file named 'D002542802-000.zip'.
3. Next in the "Metadata Presets" menu:	 The screenshot shows the Cutwise Agent interface with the 'Settings' menu open. The 'Metadata Presets' option is highlighted in blue. A red arrow points to this option. The menu also includes 'Settings', 'Folder Monitor', 'Processed files', 'Developer options', and 'About'. The background shows the same 'Files Log' table and 'Info Log Jobs' section as the previous screenshot.

4. Click on the "Load customer config" button:

5. In the menu that appears, download this config file: [appsettings_Vision360.json](#)

The setup is complete. Then you can upload files with the extension .mp4 (girdle or pavillion)

6. Check that the Third party files handling set as "Manual".

Or, in Automatic Mode, you need "Link preset" and system automatically set one of choosen preset for uploaded video (girdle or pavillion).

And click on the "Save" button.

7. Get the .mp4 files from your system (girdle or pavilion).
8. Rename the .mp4 file as <stone ID>.mp4, where <stone ID> is the stone ID of the stone, you want to create on Cutwise.
9. Drag n drop the file into the Cutwise Agent interface (or use the monitoring folder).
