

Batch convert model files OX2Z to STL format

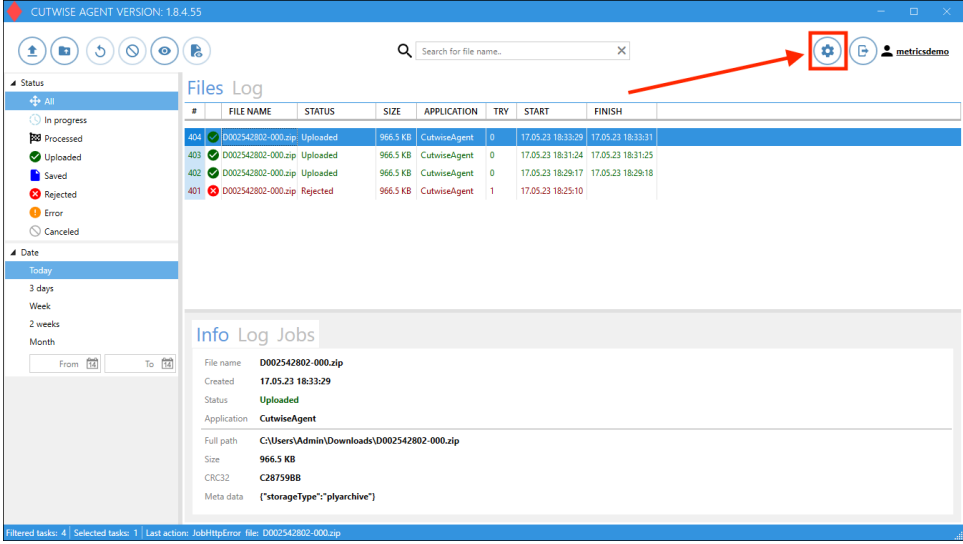

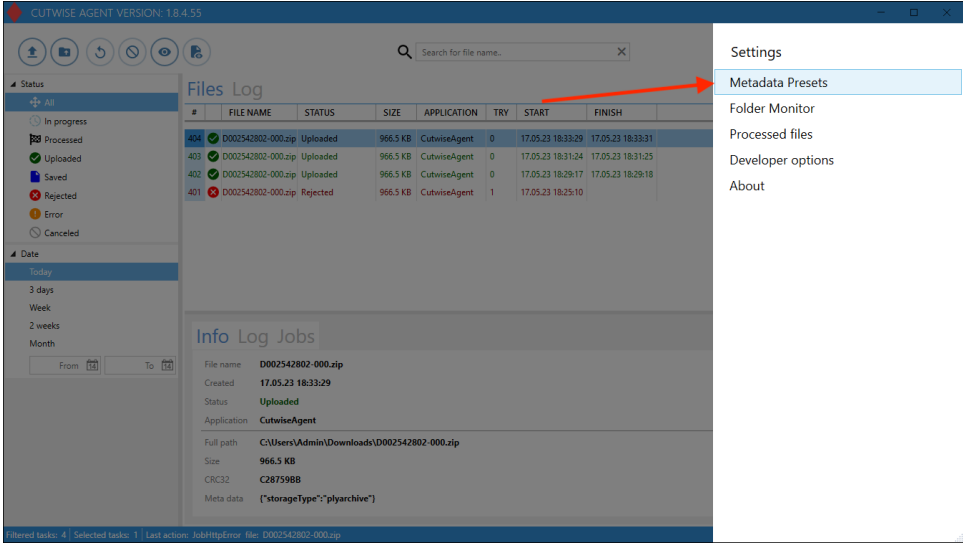

Convert model files **OX2Z** to **STL** format.

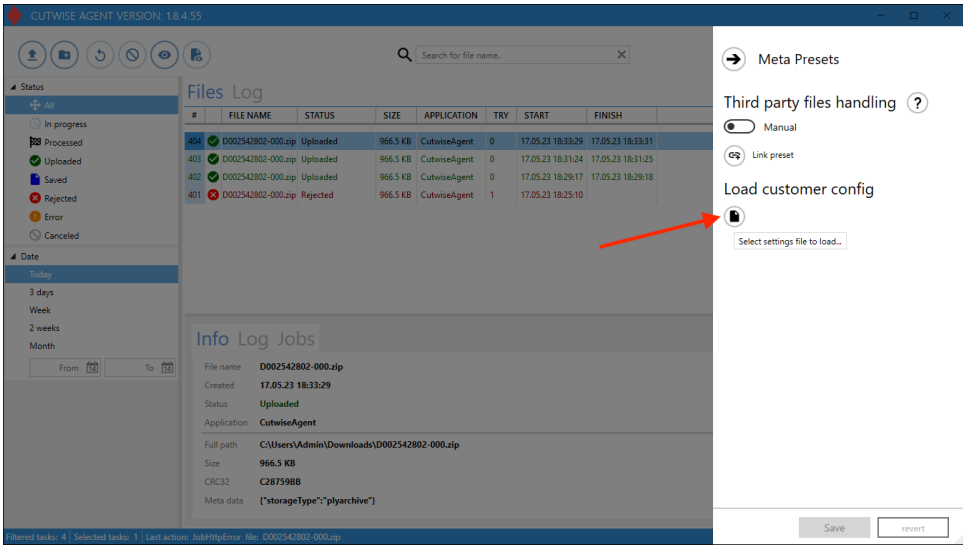

This feature is currently accessible:

- only for users with an active Cutwise b2b account that has a positive balance.
- only with **Cutwise Agent 1.9.3** or higher (latest version: <https://files.octonus.com/CutwiseAgent/Cutwise-Agent-v.1.9.3.msi>)

To convert files, you need to do the following:

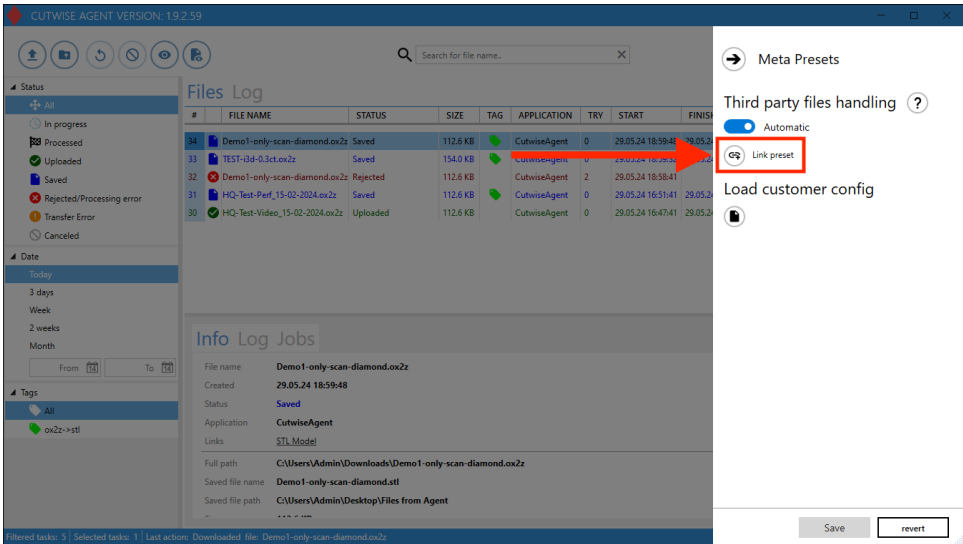

Step	Screenshot
1. Open Cutwise Agent, log in with a Cutwise account. 2. Go to Settings:	 The screenshot shows the Cutwise Agent interface. A red arrow points to the Settings icon (a gear) in the top right corner of the application window. The interface includes a status bar at the top, a search bar, and a sidebar with various icons. The main area displays a 'Files Log' table with columns for file name, status, size, application, try, start, and finish. Below the table is an 'Info Log Jobs' section showing details for a specific file.
3. Next in the "Metadata Presets" menu:	 The screenshot shows the Cutwise Agent interface with the 'Metadata Presets' menu open. A red arrow points to the 'Metadata Presets' option in the dropdown menu. The menu also includes options for 'Settings', 'Folder Monitor', 'Processed files', 'Developer options', and 'About'.

4. Click on the "Load customer config" button:

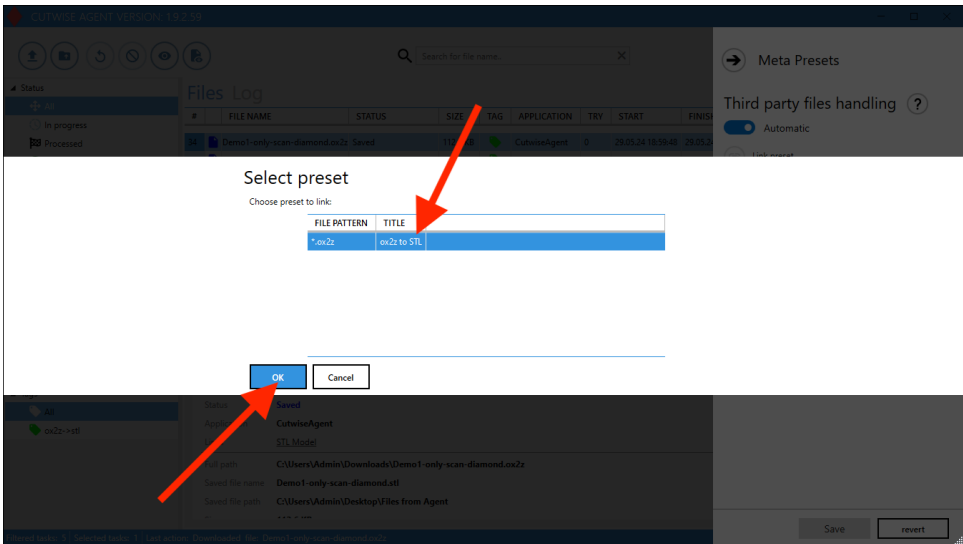

5. In the menu that appears, download this config file: [Appsettings_STL_new.json](#)

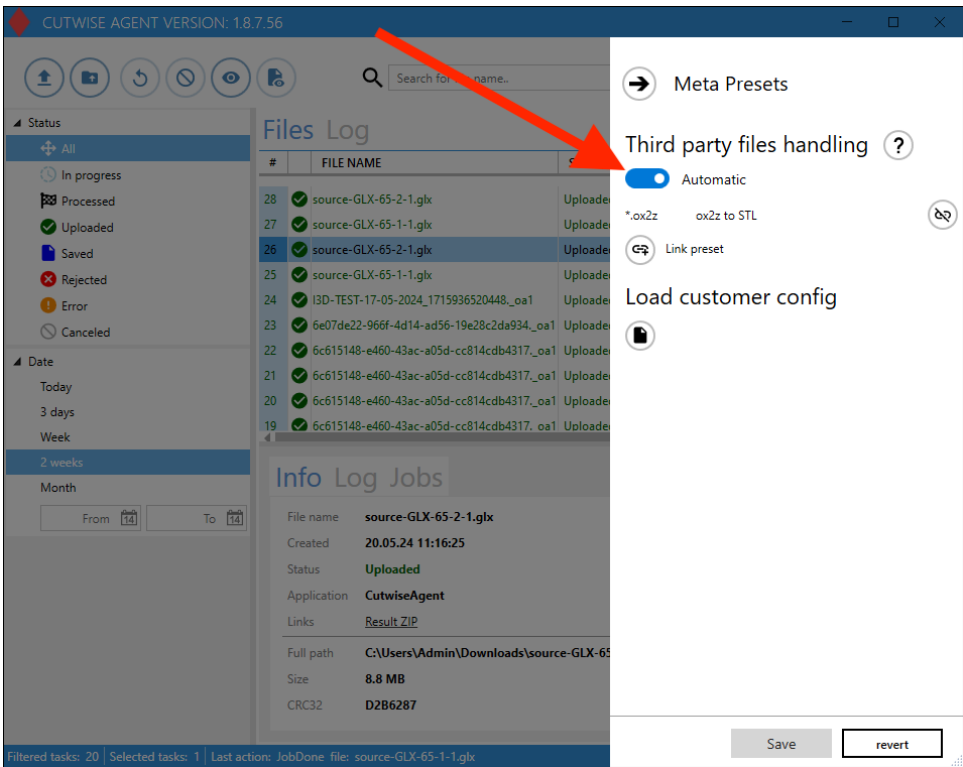

6. Click to "Link Preset" preset button

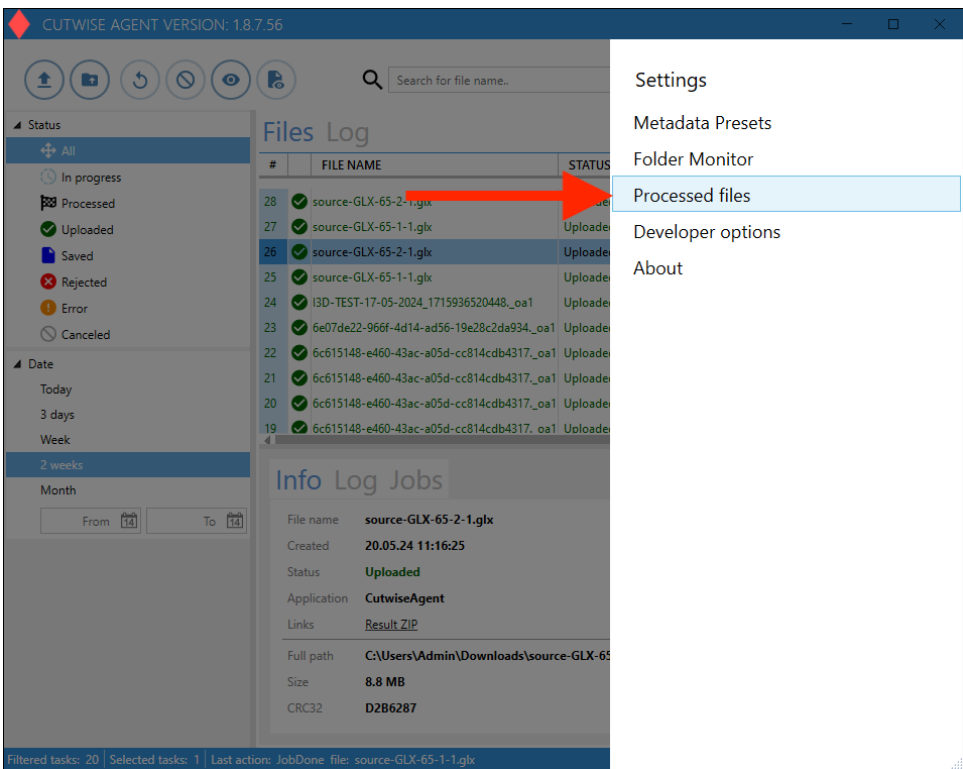

7. Choose the preset and click to "OK" button

8. Check that the Third party files handling set as "Automatic".

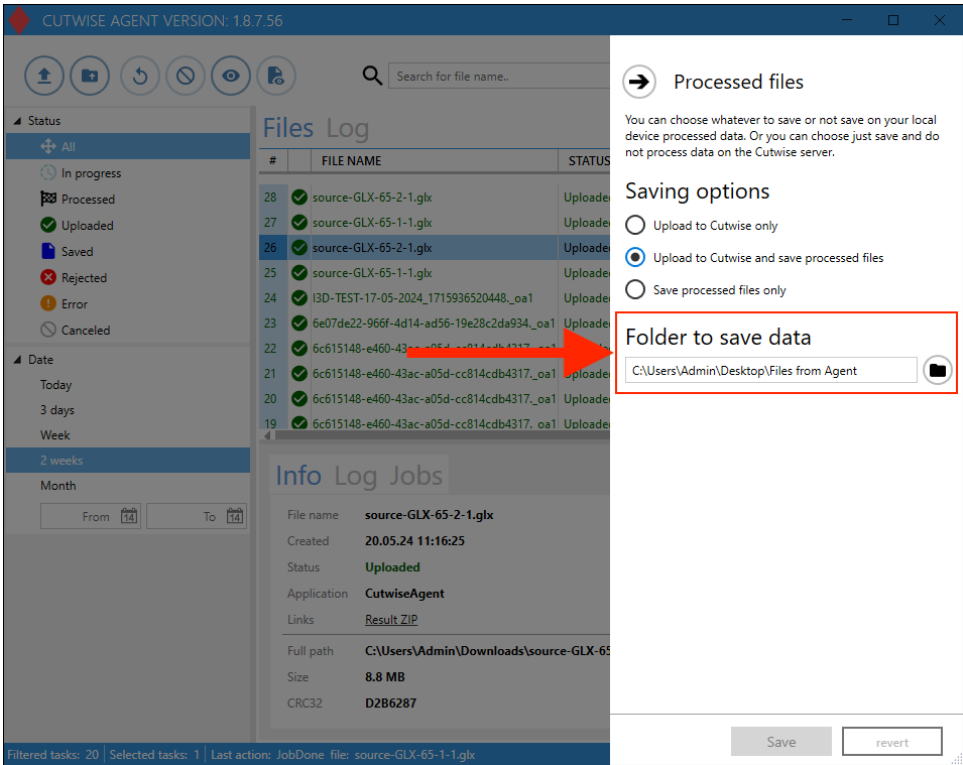

9. Go to the "Processed Files" settings

10. Change the folder for result files (or you can use the default folder).

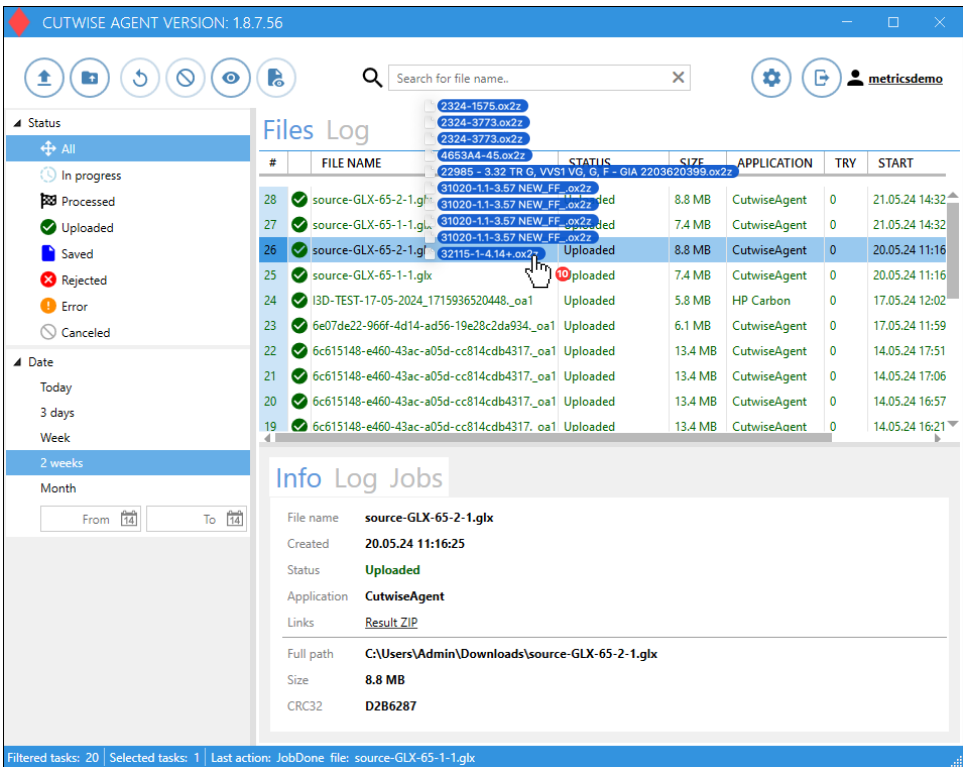

⚠ The resulting STL files will be saved in this folder.

Click the “Save” button for saving all settings.

11. Drag n drop files into the Cutwise Agent interface (or use the monitoring folder).

Uploading and conversion of files will start automatically.

After a while you can download file from Cutwise Agent Interface
