

# 2015.01.21 - Helium Polish version 5.6.65.1, BrilRecon.dll version 1.1.3.1, report.dll version 2.4.25.1

Release contains:

File	Version
HeliimPolish.exe	5.6.65.1
report.dll	2.4.25.1
BriRecon.dll	1.1.3.1

In this version we fixed following bugs:

1. There was error that one pavilion facet was recognized as cavity in some cases.
2. Oval shape is building with cavities \ Extra Facet In Oval Shape from now.
3. Return of name STEP CUT instead of STEPCUT in reports.
