

2014.11.24 - Helium Polish version 5.6.56.1, BrilRecon.dll version 1.0.24.1, ikov.dll 1.1.3.9, report.dll 2.4.21.1

Release contains:

File	Version
HeliimPolish.exe	5.6.56.1
report.dll	2.4.21.1
BriRecon.dll	1.0.24.1
ikov.dll	1.1.3.9

In this version we make following changes:

1. Building of Heart cuttings in vertical position.
2. Improvement of building of fancy types of cuttings (Cushion, Princess, Emerald (StepCut)) (we introduce selection of best algorithm among possible for building concrete cutting including new internal algorithm Anycut which allows to improve results on some samples).
3. Accounting of flip and camera angle during scanning by contours and improvement of building by pair contours (new ikov.dll).
