

Cutwise v.3.6.0: Release notes

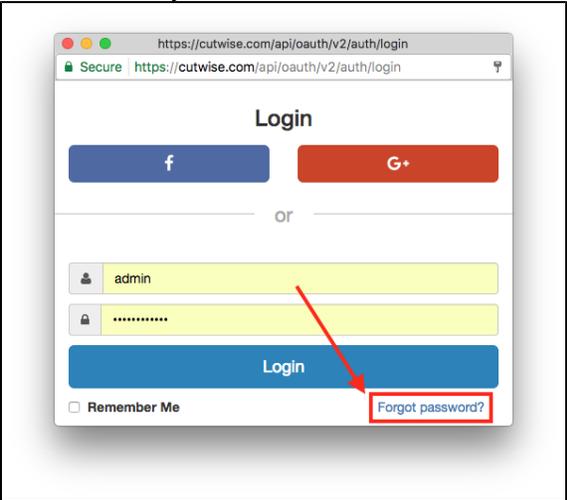

New features

1. View stone videos in gyro mode (only for mobile devices).

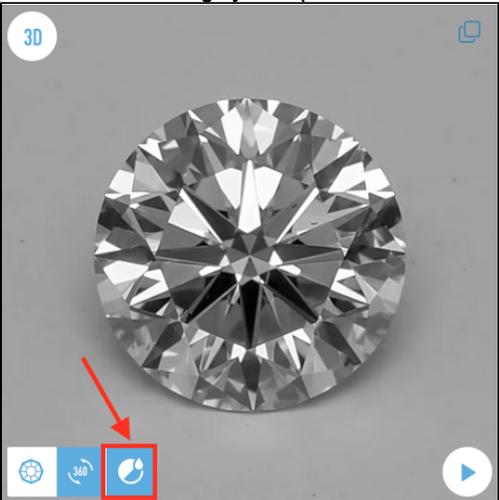

See sample video for test on iOS or Android devices: [Sample1](#), [Sample2](#).

2. Password recovery.

3. View stone videos in grayscale (for colorless diamonds).

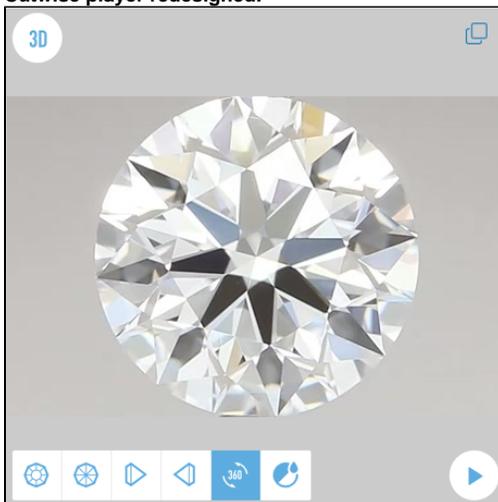

Major bugfixes and improvements

1. Multiple select for SELLERS filter.

2. Cutwise player redesigned.

3. Support iOS 8/9 for view stone video.

4. Stone can be converted between Fancy and Colorless on stone edit page.

Minor bugfixes and improvements

1. Change tabs for Saved Searches.

NEW - all not seen products.

WISHED - all wished products.

FOUND - all products relevant current filters (excluding rejected and blacklisted).

The screenshot shows a mobile application interface for an 'Optical metrics report'. At the top, it displays 'All' and the date '23.03.2017'. Below this is a bar chart icon and the title 'Optical metrics report', with a red arrow pointing to it. A table below the title shows three columns: 'New' with a count of 3677, 'Wished' with a count of 0, and 'Found' with a count of 3678. The 'Found' column is highlighted with a blue background. Below the table, there is a section for 'SAVED PARAMETERS' with the text 'colorless; available only; sorted by desc. 'Media Relevance' field' and two buttons: 'Save' and 'Cancel'. The 'NOTIFICATIONS SETTINGS' section includes 'Email:' and 'Push:' labels, each with a dropdown menu set to 'Do not send'. At the bottom, there is a 'Delete saved search' button with a trash icon.

3677	0	3678
New	Wished	Found

SAVED PARAMETERS:
colorless; available only; sorted by desc. 'Media Relevance' field

NOTIFICATIONS SETTINGS:
Email: Do not send
Push: Do not send

Delete saved search
