# November 13th, 2019. Cutwise v.4.11: Release notes

### New features

1. New Spread info block on Diamond page.

This block shows how Diamonds with the same weight can have different visible size depending on their shape.

Your browser does not support the HTML5 video element

## Other improvements

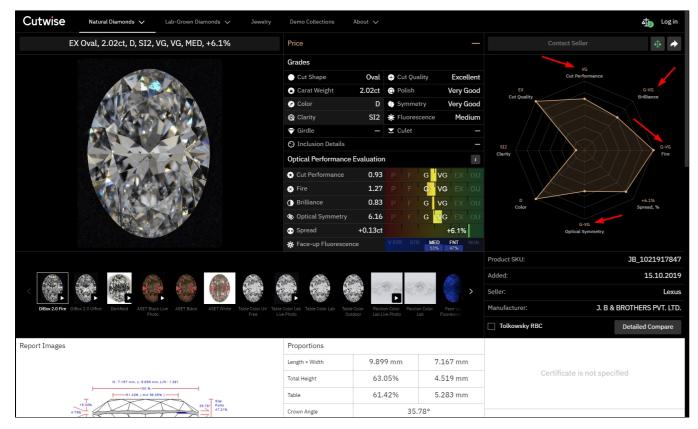

#### 1. Modifications on Clarity Plotting Legend.

Control and view Inclusions of selected type.

Your browser does not support the  $\ensuremath{\mathsf{HTML5}}\xspace$  video element

#### 2.Radar chart values

Radar chart values were updated to Optical performance grades.

3. Bugfixes.
